LANDSCAPER BODIES

Tim Hovik's SAN TAN Ford

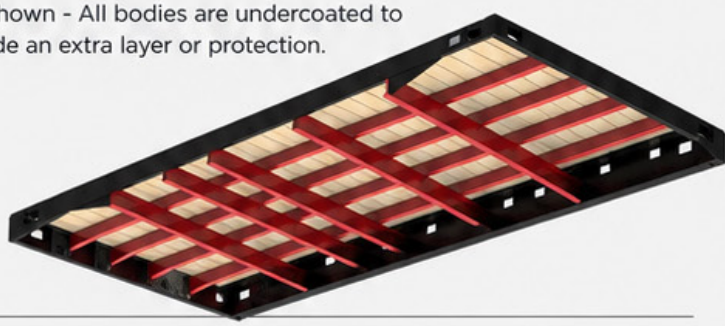

LANDSCAPER BODIES

The function and versatility of the Knapheide Landscaper Body is specifically designed for the needs of the landscape contractor. Built with the quality and strength of a Knapheide Platform Body, the versatile Landscaper Body has everything you need to get the job done.

PLATFORM UNDERSTRUCTURE

- All platform bodies are constructed with structural long sill and cross sill understructure.
- Not shown - All bodies are undercoated to provide an extra layer or protection.

108" CA Dual Rear Wheel	PLB-12-B	12'	KPLS-942463A	24"	2,106 lb.	11.6 cu. yd.	KHA-1520SF-ED	580 lb.	9.6 tons

**Cubic yard capacity is based on uniform level load to top of sides. Hoist Capacity is based on water level non-diminishing load, as the hoist must raise both the body and the commodities. Check the commodity material weights in the NTEA Truck Equipment Handbook to eliminate overloading of the hoist and the GVWR and GAWR of the chassis. Contact your Knapheide distributor for additional assistance.*

FEATURES NOT SHOWN

FLOOR ASSEMBLY
10-gauge high strength steel floor plate with 10-gauge formed cross sills and 5" structural long sills

WATER-BASED UNDERCOATING
on underside of platform

COMMITMENT TO

CORROSION RESISTANCE

BUILT FOR WORK.
BACKED BY FORD.
READY FOR YOU.

Corrosion won't be a concern when you buy quality Knapheide products. To give you the best corrosion protection, we utilize a state-of-the-art, custom-designed, 12-step, SST cathodic electrodeposition finishing system, called "E-Coat."

It bonds prime paint to steel by an electroplating process to give you a superior coat of primer, resulting in better corrosion protection compared to spraying methods.

This system allows us to create products with the highest level of corrosion resistance available.
